

JKP Super Precision Keyless Drill Chuck

- > 100% of JKP drill chucks are individually controlled to ensure a maximum total indicator run-out of 0.0016"
- > Self-tightening feature automatically increases clamping, forces in proportion to the increase torque during the drilling operation; this prevents tool slippage in clockwise rotation
- > Left hand rotation is available upon request

JKP Series

EDP Number	Part Number	Capacity Inch	Mount	Sizes (Inch)			List Price
				Ø	L1	L2
