Experts in Manufacturing

We design and manufacture all of our tools in our company owned ISO 9001:2008 facilities. We do not source or contract out production to other manufacturers. This gives us complete control in design and quality. The manufacturing processes used in the production of our fastener driving tools are regarded to be some of the best in the world today:

BIT HOLDERS

Stainless Steel with C-Ring

EDP	LENGTH	MSRP
175MH1CD	3"	\$2.69
1150MH1CD	6"	\$5.28

NUTSETTERS

Magnetic Nutsetters

EDP	LENGTH	MSRP
165MN516	2-9/16"	\$1.74
1150MN516S	6"	\$5.21

DRIVER BITS

Phillips #2

EDP	DESCRIPTION	LENGTH	MSRP
125P2R	Reduced Insert Bit	1"	\$0.19
125P2A	Insert Bit	1"	\$0.35
150P2A	Power Bit	2"	\$1.59
170P2A	Power Bit	2-3/4"	\$0.81
190P2A	Power Bit	3-1/2"	\$0.98

Vega Quality

S2 Modified Steel

Higher silicone content provides "flex" and increased durability, which reduces wear

Gun Metal Gray Finish

Industrial quality surface finish

Heat Treatment

Exclusive precision controlled process for high durability and low wear

CNC Machined

Most precise manufacturing method for managing tolerances, resulting in less bit wear and cam out due to precise fastener fit

MSRP

\$45.08

Vega offers a superior lineup of impact sockets for industrial MRO and professional construction users

All of Vega's 1/4" and 3/8" impact sockets under 5/8" in size are uniquely made from S2 modified steel. The most durable tool steel for the repetitive impact put on sockets by today's power tools.

Radius corners on hex and square openings for stress relief providing for more torque while reducing fastener rounding

Industrial strength magnets offered in both fixed and spring depth-adjusting configurations

Thin wall sockets designed for limited clearance applications
